WARNING

⚠ Turn on the power in transmitter → receiver order. In addition, always check the operation of all the servos before use.

⚠ Do not leave the servo in the locked state. Leaving the servo in the locked state may cause smoke, fire, and damage.

⚠ Never connect the battery in reverse. Reverse connection may cause smoke, fire, and damage.

⚠ Do not touch the servo case immediately after servo operation. You may be burned because the motor and circuits inside the servo become hot.

⚠ Use the servo as an actuator in hobby applications. Futaba will not be responsible if the servo is used in applications other than the above.

⚠ Futaba will not be responsible for damage, etc. caused by the use of parts other than Genuine Futaba parts.
